DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive due to the after-final amendments filed 8/18/2008 and, therefore, the finality of that action is withdrawn and is in condition for allowance.

Allowable Subject Matter

Claims 1, 3, 5-7, 11, 18-28 are allowed.

The following is an examiner's statement of reasons for allowance: The above mentioned claims are allowable over the prior arts because the CPA (Cited Prior Arts) of record taken singly or in combination fail to anticipate or render obvious the specific added limitations, as recited in independent claims 1, 20, & 26 and subsequent dependent claims.

The CPA does not teach or suggest a method including the limitations regarding buffering outbound traffic and then comparing the buffered outbound traffic to the copied inbound traffic in order to determine if malicious code has been detected. Furthermore, the CPA fails to teach/fairly suggest a method where the inbound traffic is intercepted and copied once received from a source external to the host computer system and where the outbound traffic is internally intercepted subsequent in time to the inbound traffic and buffered before being transmitted to a destination external to the host computer system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
